Email address: sales@aquadynamics.co.nz

Phone Number: 09 837 5598

NZBN: 9429036430208

Relevant Building Code Clauses:

G12.3.1 (c) (ii) water for human consumption that is offensive in appearance, odour, or taste:

G12.3.7 *Water supply systems* must be installed in a manner that—

- (a) pipes water to *sanitary fixtures* and *sanitary appliances* at flow rates that are *adequate* for the correct functioning of those *fixtures* and *appliances* under normal conditions; and
- (b) avoids the likelihood of leakage; and
- (c) allows reasonable access to components likely to need maintenance; and
- (d) allows the system and any backflow prevention devices to be isolated for testing and maintenance.

Expected compliance contribution: These units are designed to treat mains or rural water to improve appearance, odour, or taste

Limitations on the use of the Product: Please refer to installation manual

Installation Requirements: Systems must be plumbed according to local guidelines by a qualified plumber.

Maintenance Requirements: Please refer to installation manual / spec sheet for changeout requirements

Building Act 2004 Section 26: This product is not subject to a warning or ban under s26 of the Building Act

Version 1 (Dec 2023)
