### Building code performance clauses

All relevant building code performance clauses listed in this document:

#### B2 Durability

##### B2.3.1

*Building elements* must, with only normal maintenance, continue to satisfy the performance requirements of this code for the lesser of the *specified intended life* of the *building*, if stated, or:

- (c) 5 years if:
- the *building elements* (including services, linings, renewable protective coatings, and *fixtures*) are easy to access and replace, and
  - failure of those building elements to comply with the *building code* would be easily detected during normal use of the *building*.

#### F2 Hazardous building materials

##### F2.3.1

The quantities of gas, liquid, radiation or solid particles emitted by materials used in the *construction of buildings*, shall not give rise to harmful concentrations at the surface of the material where the material is exposed, or in the atmosphere of any space.

#### G1 Personal Hygiene

##### G1.3.2

*Sanitary fixtures* shall be located, constructed and installed to:

- facilitate *sanitation*,
- avoid risk of food contamination,
- avoid harbouring dirt or germs,
- provide appropriate privacy,
- avoid affecting occupants of adjacent spaces from the presence of unpleasant odours, accumulation of offensive matter,
